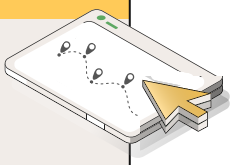
TRANSPORTATION

VCU-RRTC ace
Autism Center for Education

Bus drivers and transportation staff are critical liaisons in creating safe and positive transitions between home and school. Explore these resources to support students with autism in transportation settings.



Safety for All

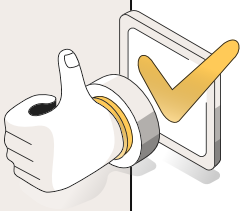
Think of this hybrid training as your trusted GPS for the Hanger Bill (SB 229). This streamlined series combines two hours of online modules with live, staff-led activities, providing our special education and transportation teams a direct route to meeting state requirements.

Strategies to Support Everyday Transitions

Many autistic individuals struggle to successfully transition from one activity to another. In this short module, we look at why it is important to teach the steps and expectations for successful transitions. These tips can be applied to transitions from home to the bus, bus to school, etc.

Success on the Bus

This document outlines 10 practical tips for bus drivers and support staff to help ensure successful transportation for autistic students. This quick list can be reviewed in a staff meeting or shared with the transportation team at the beginning of the school year.



More Resources

Explore our growing collection of resources curated by the ACE team specifically for transportation teams. We frequently add new tools and external links to ensure you always have access to the most relevant information.
